

Roads and Bridges Monthly Report June 2010

Private Road Homeowners' Meeting: A meeting was held on Thursday evening, May 27th for residents of the Paganica (Paganica Drive, Dormy Lane, Bisque Drive, & Rub-o-Green Lane) and Abbey Woods (Abbey Woods Land & Abbey Woods Drive) subdivisions; and a meeting for residents of the Pondgate subdivision was held on Thursday, June 24th. The next meeting will be on July 22nd for the Barrington Ridge and Fair Meadows subdivisions, as well as for Oakdene, Windrush and King Roads.

New Drainage Maintenance Program: The culvert survey is almost complete. Within the next month, results will be analyzed and a determination will be made as to culverts that need to be cleaned out by Cuba Township. We are also creating an inventory of the features such as detention ponds which are to be maintained by the Village, and a plan for regular maintenance of these features.

Road Sign Inventory: A Gewalt Hamilton survey team will do a road sign inventory for maintenance purposes, to insure that all necessary signs are in place.

2010 Drainage Project: The second half of the project for drainage improvement along Three Lakes Road should take place this fall.

2010 Resurfacing Program: Chicagoland Pavings' resurfacing work on Hawley Woods Road, Round Barn Road, Old Dundee Road and Old Bartlett Road should begin next month.

Winter Services Contract: Bids to be let in August

Roadside Mowing: Should occur early next month; website will reflect this information so that the residents will be on notice of the clearing of the right-of-ways.

2011 Drainage Project: An internal planning meeting for the 2011 project to improve drainage along Chapel Road was held June 24th. Soil testing will be performed to determine if road buildup and cisterns

will be practical for the location. Plans are also being made to decrease the slope of Church Road at the Algonquin Rd end.

Cross-Walk on County Line Road near Oakdene/Old Hart Road: IDOT has been contacted to request a speed study on County Line Road's eastern edge with Barrington. Exploration of creation of a crossing at Oakdene/Old Hart is being undertaken. Funneling foot traffic via a new sidewalk along the south side of County Line Road to the signalized intersection may be a solution which wouldn't impact traffic flow too greatly. However, it is not expected that this would be traversable on horseback. Additionally, the school would need to create a sidewalk along its property to complete the walking path; and cooperation with Barrington would be required. If a marked crossing is created at Oakdene/Old Hart; it could be used by both equestrians and pedestrians. However, speed reduction would probably be recommended on County Line if this option is chosen.

Other Maintenance: Roadway striping and bridges inspections will take place later this year.

2009 Road Program Resurfacing Follow Up: Surrey and Wagon Wheel filling and reseeding of shoulders took place this month

Resident Complaints Received:

Drainage issue on Lakeview Lane – drainage improvement on the county-maintained road may help draw away excess water; so the Village Engineer contacted IDOT again to request the work on Dundee Road. Option for improvements on private property were provided to the resident

Drainage issue on Three Lakes Road – driveway culvert complaint

Drainage issue on Remington Way – developer removed grating from storm drain;

Homeowners' Association fears there may be liability if someone falls into drain,

resident asked to refer to Building Department to inspect modification for code violation

Resurfacing follow-up: shoulder rutting on Oak Knoll (2008 resurfacing project) is under investigation
